

Data Comparison: Radisson Beach Resort, Palm Jumeirah, Dubai.

Energy Consumption Comparison following installation of OH4 Energy Saving System on a closed loop swimming pool circuit

The client is an iconic beach resort, boasting beautiful scenery, onsite dining and amenities, including a pool, spa and gym. OH4 Energy Saving was installed earlier this year after a data collection period prior to installation. The following figures show a data comparison following installation.

	October 2024	October 2025	% Saving
KwH of Energy Consumed	7896	6467	18%
Cost (Dirham)	3502.82	2871.35	18%

The data for one month following the installation of OH4 shows an 18% reduction in fuel consumption at the Radisson Beach Resort, Palm Jumeirah. This represents a cost saving of 631.47 Dirham and a carbon saving of 286.4kg of carbon.
